The Glenbrook Academy of International Studies

The Glenbrook Academy of International Studies is a nationally recognized program integrating English, social studies, and world language. Since The Academy's founding in 1981, its graduates have matriculated to selective and highly selective colleges and universities throughout the United States and abroad.

Selection Process

Students apply to The Academy during the second semester of their eighth grade year. Selection is based on scores earned on standardized achievement tests in the areas of reading and language; records of grades earned and evaluation of study habits, provided by feeder schools; three teacher recommendations (language arts, social studies, and world language); information provided on the application form, including a personal essay; impromptu writing derived from a non-fiction prose reading on a current global topic; and a personal interview with Academy faculty and students. Each year, more than 100 eighth graders from more than ten area middle and junior high schools, both public and private, apply for the following year's ninth grade class, comprised of only 30 students from Glenbrook North High School and Glenbrook South High School combined.

Curricular Overview

The Academy's faculty employs a collaborative teaching model featuring interdisciplinary instruction and flexible time scheduling in daily sessions from 8:00 to 10:40 a.m. Both grade-level and subject-matter teaching teams coordinate their curriculum and instruction to emphasize critical thinking, communication skills, and research skills across all disciplines. World language instruction—four years of the same language—rotates yearly among French, German, Mandarin Chinese, and Spanish. Five Academy courses culminate in Advanced Placement examinations: tenth grade social studies (*AP World History*), eleventh grade English (*AP English Language and Composition*), eleventh grade social studies (*AP United States History*), twelfth grade English (*AP English Literature and Composition*), and twelfth grade world language (*AP French/German/Mandarin Chinese/Spanish Language*.) Following is a list of all courses offered.

Ninth Grade

English: World Literature I
Social Studies: World History to 1500
World Language I

Tenth Grade

English: World Literature II
Social Studies: World History since 1500 (*with AP exam*)
World Language II

Eleventh Grade

English: American Literature (*with AP exam*)
Social Studies: American History (*with AP exam*)
World Language III

Twelfth Grade

English: Capstone Course (*with AP exam*)
Social Studies: Contemporary Global Challenges
World Language IV (*with AP exam*)

Assessment Standards

The Academy's courses maintain the rigorous, content-based standards of honors and AP courses at both high schools as foundation for their interdisciplinary focus on critical thinking, communication skills, and research skills. Academy courses are, thus, weighted the same as honors and AP courses in the computation of academic grade point averages. In addition to their English, social studies, and world language classes, students in The Academy typically round out their yearly schedules with a challenging array of courses in mathematics, science, fine arts, and applied arts and technology.
